

Sciencing on Saturday

Science CAN be fun! (and educational!)

S.O.S. is a fun-filled, hands-on science and technology experience for 1st- 8th grade children. It is an exciting and educational Saturday activity hosted by the OKC Homeschool 4-H Robotics Team.

DATE: Saturday Dec. 8, 2018: 2500 NE 63rd Street, OKC, OK 73111

Session Topics and Times

AGE	Session One: 9 AM - 11:30 AM	Lunch	Session Two: 12:30 PM - 3 PM
Grades 1-2	Problem Solving, \$40 (\$30 if early)	Pizza and Robot Demo (\$7)	Scientific Experiments, \$40 (\$30 if early)
Grades 3-4	Lego Robotics, \$40 (\$30 if early)		Projectiles and ancient siege weapons \$135 (\$125 if early)
Grades 5-8	Projectiles and ancient siege weapons \$135 (\$125 if early)		Lego Robotics, \$40 (\$30 if early)

Please arrive 15 minutes before sessions start.

Enrollment is limited, please register early before space fills up!

Prices for most sessions are \$40 per child and the siege weapons session is \$135 per child. However, if you enroll on or before Saturday December 1, all sessions are available at a \$10 discount.

- \$40 for one session (\$30 if you register early).
- The Siege weapon session (\$135) provides each child with an Arduino based catapult system that they can take home after the session is complete.
- Additional family members get a \$5 discount.
- Lunch is available (pizza and a drink) for \$7, along with a free robot demonstration.

Visit www.okcrobot.com/SOS for registration information.
